

FEELINGS AND FACIAL EXPRESSIONS

Our face is a great way to express how we feel as when our feelings change so does our facial expression! For example, what happens to our mouth when we are feeling sad? Do the corners of our lip face up or down?

Explore facial expressions with Ginger the Gingerbread Man! Observe the emotion shown in each box, and draw a facial expression to match that emotion for Ginger.

HAPPY

When we're happy our eyebrows lift, our eyes light up and take the shape of little rainbows, and our mouths break into a smile. Sometimes we're so happy we even show our teeth!

SAD

When we're sad our eyebrows are tilted, raised in the centre, and lower at the sides. Our eyes droop, and the corners of our mouths turn downwards in a frown.

ANGRY

When we're angry our eyebrows scrunch up towards the nose, our eyes narrow, and the corners of our mouths turn downwards. Sometimes we purse our lips into a pout.
